

Editorial Mayor

The council joins me to welcome you on the website of our community. Now, the Internet is an essential tool for any keen to boost its communication strategy community.

You'll find a tool that we wanted both practical and welcoming. You will discover the history and heritage of our rural community with a rich and distinguished history and a unique location.

The site will also provide information on the achievements and projects of the municipality, associations and school life, but also many practical guidance on paperwork.

Do not hesitate to send us your suggestions for improving the content and presentation. I wish you a very good visit.

Regards,

Yvan GONZALEZ
Mayor
